START

PROJECT 1

Hyper Car Game

- 🚗 AI Swapping Cars – dynamic traffic and opponent system
- 🎮 Hard & Interactive UI – smooth controls and responsive design
- 💰 Coin & Diamond System – players earn and spend for upgrades
- 🎁 Daily Reward System – encourages daily engagement
- 🛵 Endless Road Mode – challenging survival-based gameplay
- ⭐ Multiple Features Added – customization, immersive sound, and progressive difficulty
- Role: Game Developer & Designer
- Designed core gameplay mechanics and UI/UX.
- Developed using Unity with optimization for mobile.
- Handled concept design, reward systems, and feature integration.

PROJECT 1

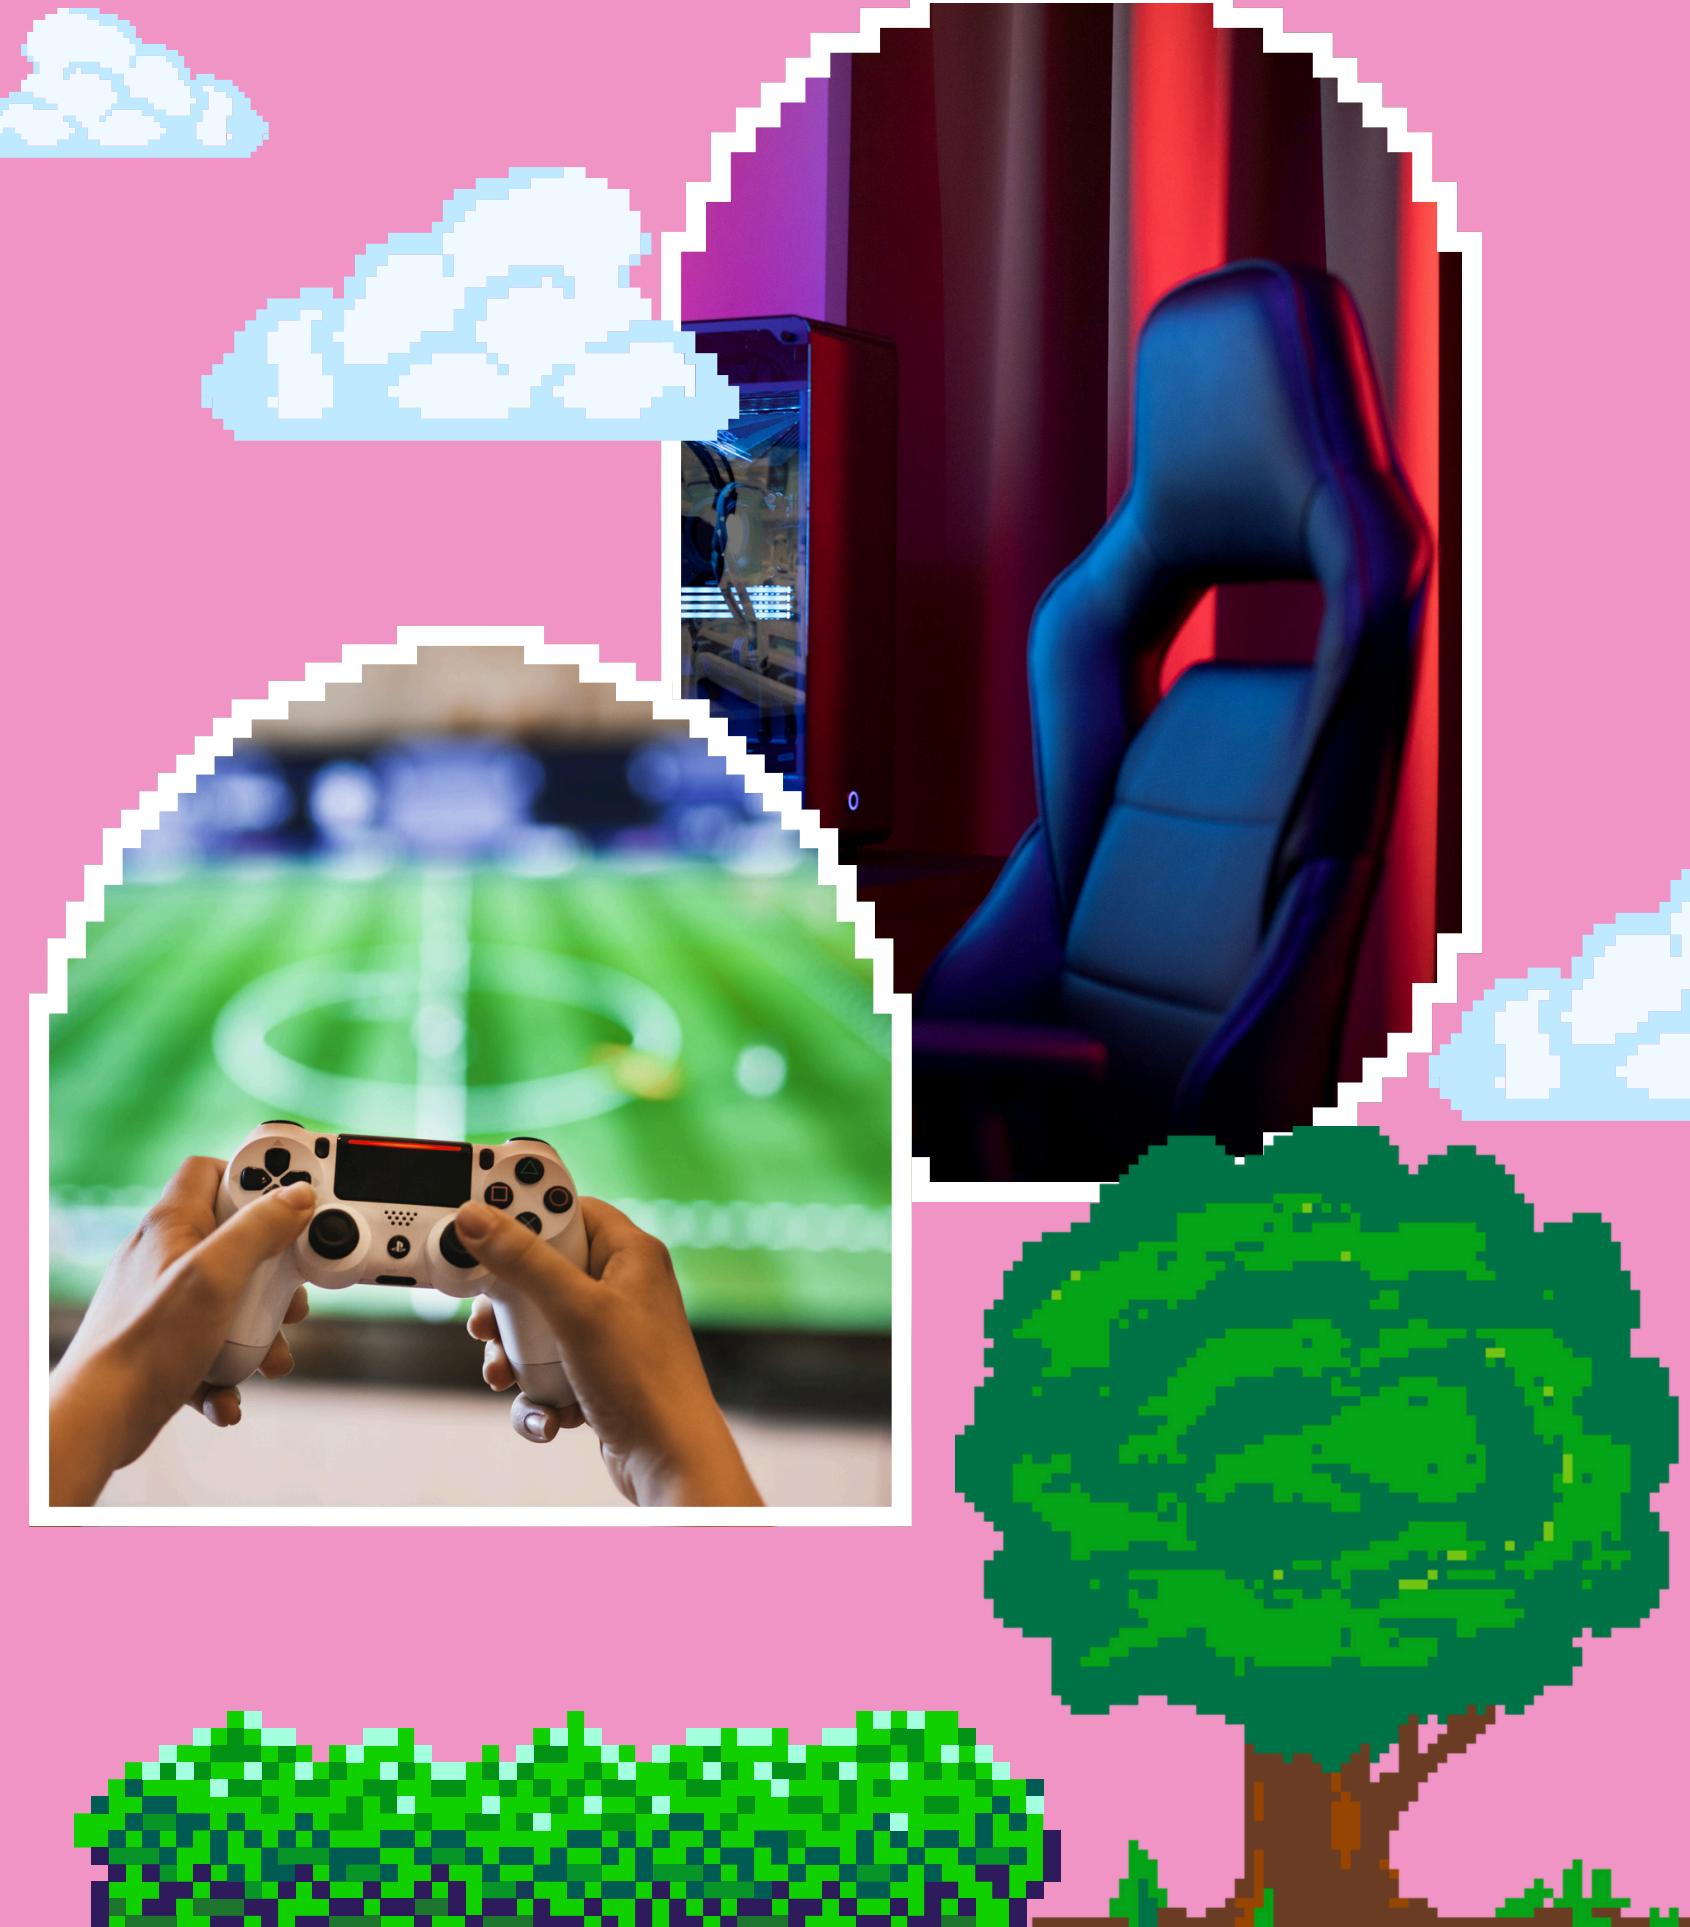

Hyper Car Game Look

PROJECT 2

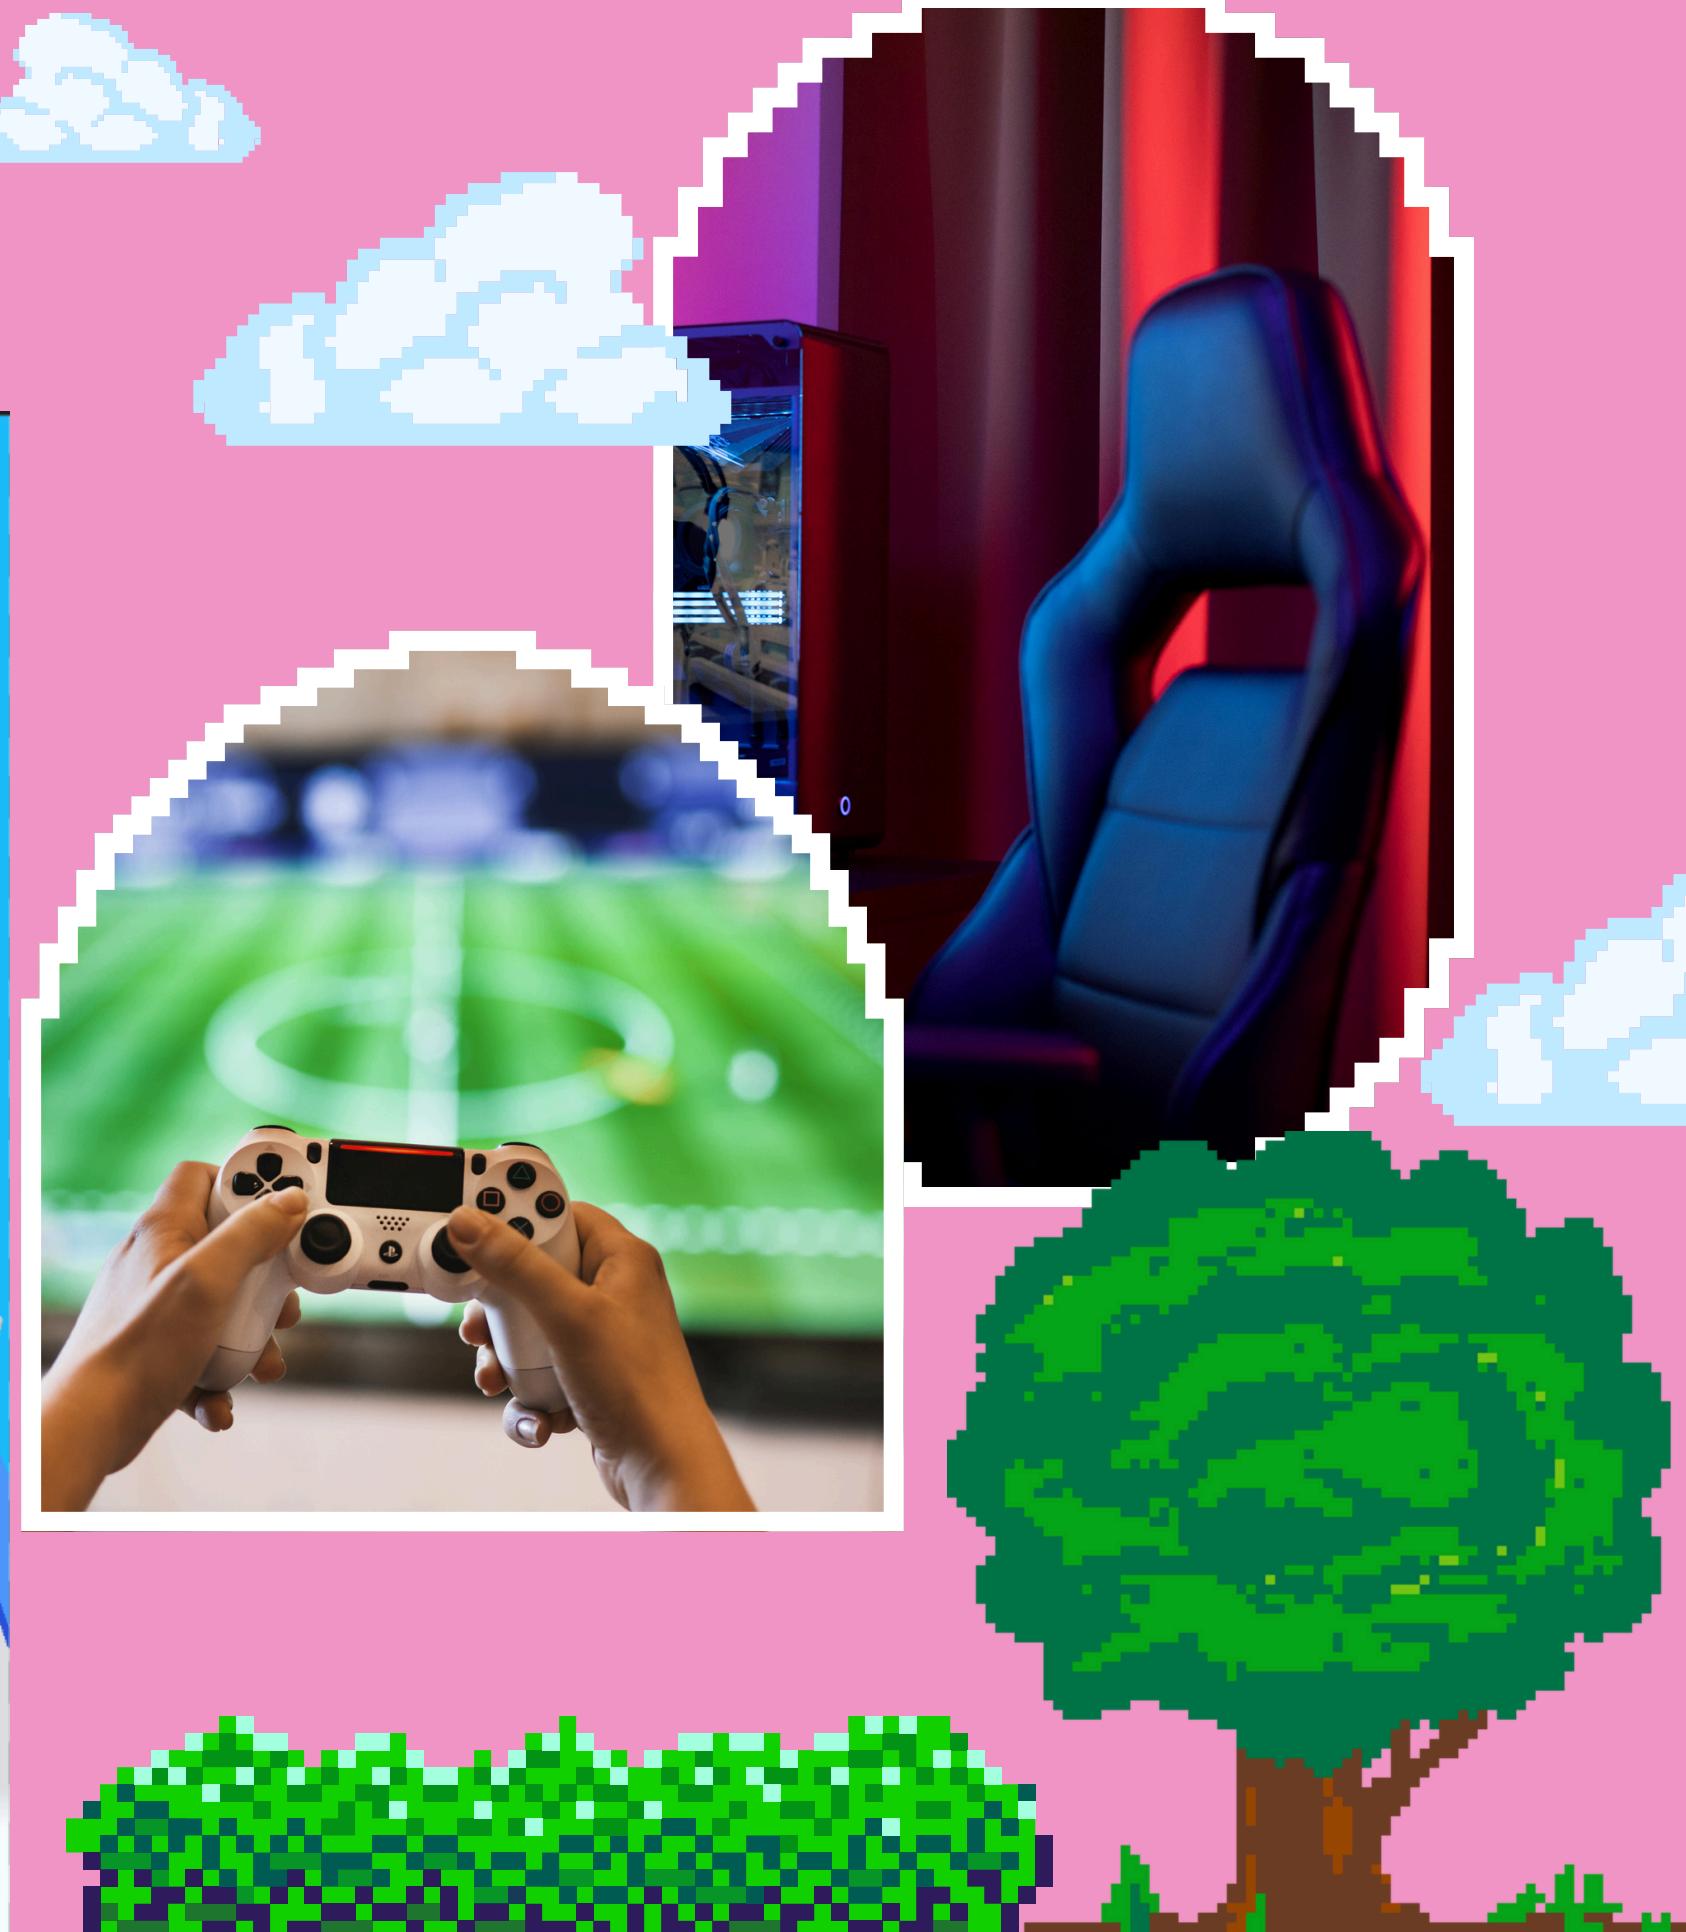

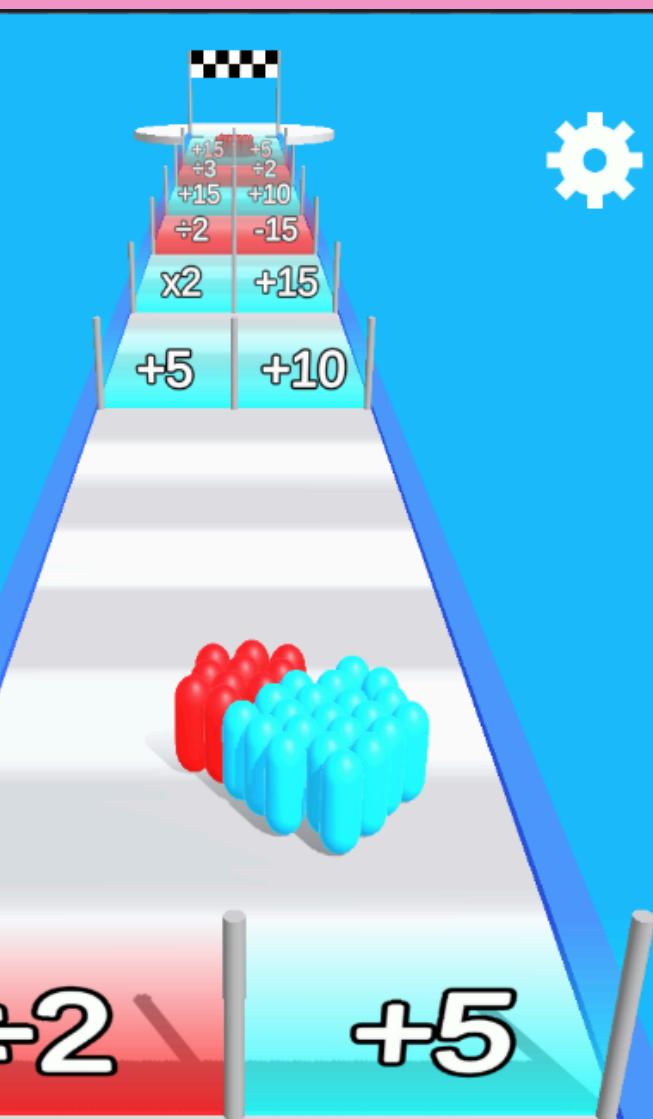

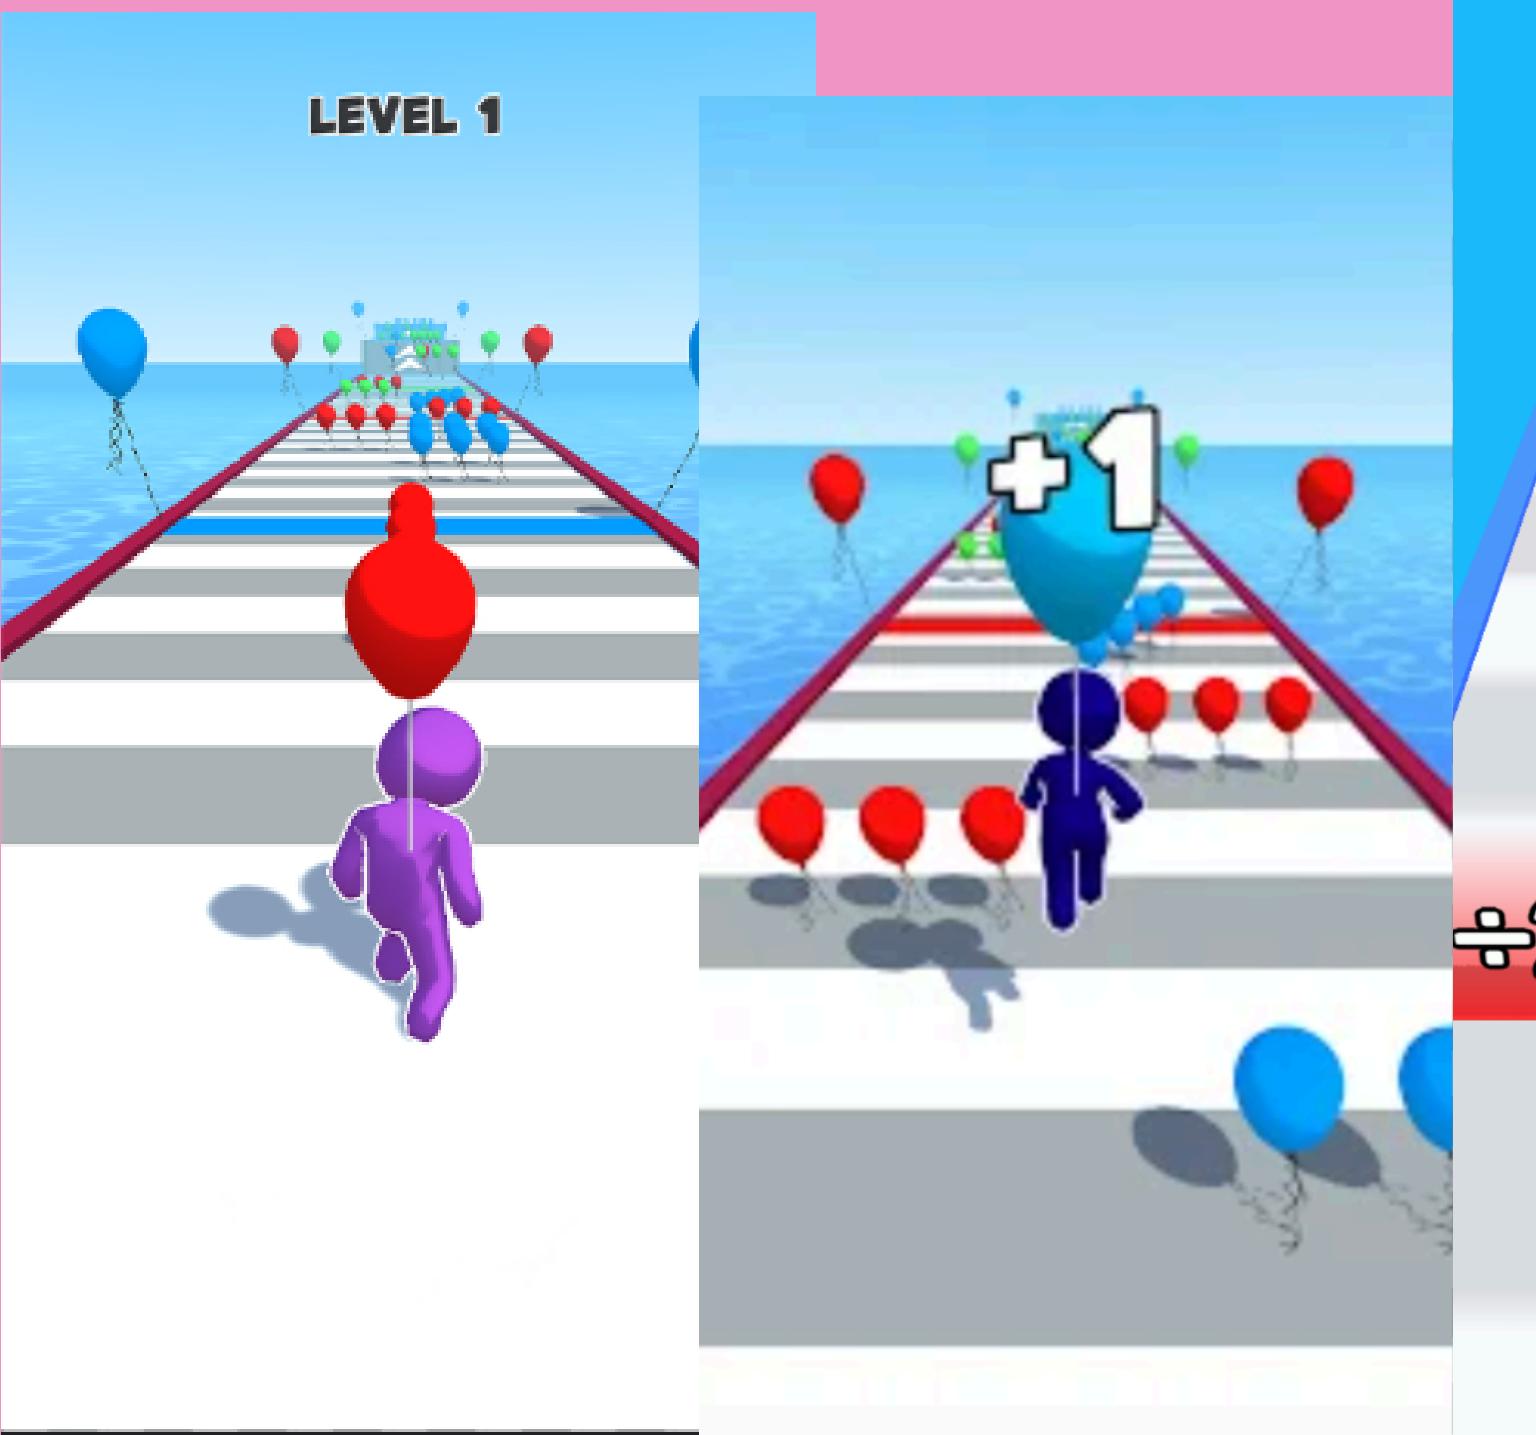

Casual Runner Game

- 🏃 Character Running Mechanics – smooth animations and controls
- 🍎 Healthy vs Junk Food System – eating healthy keeps character fit, junk food slows progress
- 🌟 Level Progression & Challenges – increasing difficulty as player advances
- 💎 Collectibles & Rewards – coins, bonuses, and daily rewards
- 🎨 Bright & Engaging Graphics – colorful visuals designed for children and casual players
- 🎵 Background Music & Sound Effects – immersive experience
- Role: Game Developer & Designer
- Designed gameplay logic, levels, and character mechanics.
- Developed UI elements and interactive features in Unity.
- Created reward and collectible systems for player engagement.

PROJECT 2

Casual Runner Game Look

PROJECT 3

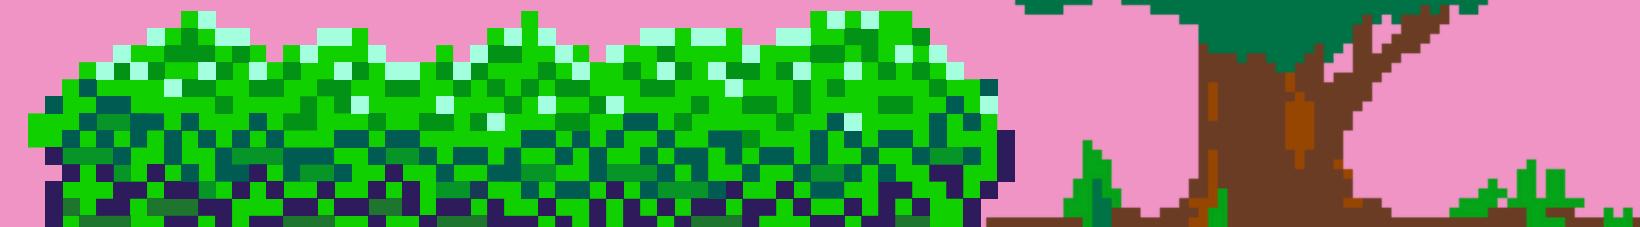

Idle Kirana Tycoon

-  Shop Management – players run a kirana shop, hire workers, and manage inventory
-  Idle Income System – earn money even when offline
-  Animated Characters – workers perform tasks with fun, engaging animations
-  Upgrade & Expansion – expand shop, upgrade counters, and unlock new features
-  Colorful Visuals & Interactive Objects – immersive and child-friendly design
-  Simple Controls – easy tap & swipe mechanics suitable for casual players
- Role: Game Developer & Designer
 - Developed core idle mechanics and shop simulation in Unity
 - Designed animated characters, UI/UX, and interactive objects
 - Implemented upgrade systems, progression logic, and reward mechanics
